Our Kehila Our Goal

Our goal is to reach the entire Passaic/Clifton kehila electronically.

Our Kehila will be the central source of information, e.g., simchas, events, updates on disasters, and any other information useful to the community.

Contrary to popular belief, it is NOT just an email list. The main purpose is to give community members a place to see what's going on in the community at ourkehila.com

Why Our Kehila?

In this electronic-age, our community needed a central source to plan events and simchas without conflicts. It was no longer feasible to plan using a manual list. And we needed a central place to keep the community informed of useful information of interest to the entire community.

Who is behind the scenes?

Resources available to Our Kehila include the rabbanim, government and school officials, technology experts, and people willing to help who are called upon for assistance as needed. For example, with Hurricane Sandy our community banded together to assist with housing, meals, generators, traffic information and much more to help us get through that disaster. After Pesach our rabbanim assisted in identifying the chametz issues and where we could shop.

How do I join?

Go to ourkehila.com and complete the form in the "contact/join" tab—name, address and e-address.

Why do we need your street address? It's our way to control who joins to be sure you live in our community. We verify your name and address to the community directory published by Yeshiva Ketana.
